## Join the fastest growing Motorcycle Rider social network on the Internet!

Are you a member of one of the **social networks** that are exploding on the Internet like Facebook or MySpace? *Social networks are online communities of people who share similar interests or participate in similar activities.* Unfortunately, you won't be satisfied with a generic, open to everyone, social networking site because they don't focus on your unique interests, experiences, and needs as a motorcycle rider. That's why [MotorcycleMyPlace](#) was created! It's **a social networking site created specifically for the motorcycle riding community**. It offers a place where you and other motorcycle riders talk bikes, roads, opinions and stories ... a place where riders share their favorite pictures and videos ... and where group rides are organized and friends are made. **It's free, easy to explore, and only for motorcycle riders! Check it out at [www.MotorcycleMyPlace.com](http://www.MotorcycleMyPlace.com).**
