

Have you seen the new MotorcycleRoads.com?

Each newsletter focus on a new feature and this month's focus is the how easy it is to tell your friends about motorcycle roads you would like to try or have already driven. On the old site we had a tool called "Tell a Friend" that was popular yet it was very primitive in that all it really did was tell your friend about MotorcycleRoads.com but couldn't tell them specifically about roads or routes you have driven or would like to invite them to ride with you. On the new site, we have drastically more powerful sharing features ... now you can share your favorite motorcycle road pages directly to Facebook, Twitter, LinkedIn, Yahoo Pulse, Digg, and much more. See the instructions at the bottom of this newsletter for more information!

Motorcycle Road Length: 7 Miles

Written Directions

From Conway NH, travel 25.5 Miles North up Rt 16 to the Mt. Washington Auto Road on the left.

Scenery ★★★★★

This is a beautiful road. As soon as you start up the mountain you would like to have it due to an unforgiving drop off. The view is amazing. On a clear day you can see 20 miles in any direction and deep blue clouds. Bring a jacket, the last time I was here it was 80° at the top. Awesome for the middle of June.

Road Quality ★★★☆☆

The pavement was pretty good but as you get into the alpine area the gravel is more of a hard packed sand and gravel. It is not smooth. Although the first time I went there, we had to wait for 10 minutes then we had to drive across 50-100' of fairly deep loose sand and gravel. pack it down. Probably a rarity.

Roadside Amenities ★★★★★

There is a lodge with a cafe at the bottom. There is also a steep Cog Railway that you can opt to take up to the top for a view on the top as well.

Additional Info

I thought it was rather expensive to get up. It was \$15 for a ticket but I'd do it again because it is an amazing road. For more information see the link below.
