Motorcycle Road Length: 7 Miles

**Written Directions**  
From Conway NH, travel 25.5 Miles North up Rt 16 to the Mt. Washington Auto Road on the left.

**Scenery ★★★★★**  
This is a beautiful road. As soon as you start up the mountain you would like to have it due to an unforgiving drop off. The view is amazing. On a clear day you can see 20 miles in any direction and deep blue clouds. Bring a jacket, the last time I was here it was 80° at the top. Awesome for the middle of June.

**Road Quality ★★★★★**  
The pavement was pretty good but as you get into the alpine the gravel is more of a hard packed sand and gravel. It is excellent. Although the first time I went there, we had to wait for 10 minutes then we had to drive across 50-100' of fairly deep loose sand and gravel. Probably a rarity.

**Roadside Amenities ★★★★★**  
There is a lodge with a cafe at the bottom. There is also a scenic Cog Railway that you can opt to take up to the top of the mountain on the top as well.

**Additional Info**  
I thought it was rather expensive to get up. It was \$15 for a round trip but I'd do it again because it is an amazing road. For more info see the link below.
